

Global Study Tours Mexico in Oxford, England

*With Global Study Tours, groups of students from Mexico and around the world can enjoy a bespoke English learning holiday package at one of Global's English Schools study centres. Global offers a variety of locations and a wide range of programmes suitable for groups of minimum 10 students throughout the year for students aged 8 and above. From April 15 through May 7, English in Oxford, hosted a fantastic Global Study Tours group from **Colegio Del Valle, Culiacan, Sinaloa, Mexico**, promoted by Global's City Sales Representative in Culiacan and [Global Consejeros en Educacion Internacional](#) We caught up with the Mexican Group Leader, Javier Silva, to learn more about their experience of studying English in Oxford, UK, and his comments can be found under each picture:*

“Being in Oxford was such a wonderful experience. My students still keep talking to their friends and families about how much they loved studying in England.”

“The teachers at my school in Mexico, have noticed their improvements in English.”

Their English host parents also noticed how well they communicate with others. The students are now confident to speak English. During the weekday mornings, the **Colegio Del Valle** students had English language lessons at Embassy English. During the afternoons and evenings, the students and I enjoyed the leisure activities and tours described in the following two pages.

“One of my students Jocelyn Aguilar said, “Castles, churches, classic buildings, Oxford is one of the most beautiful cities in the world! The culture and food are amazing, and interesting. Weather is perfect, and I just want to say that Global’s services and Embassy English are wonderful. The teachers are so friendly, staff is the best. I’ll miss them! 🥹”

“Thanks to Global’s experience, more students will want to travel with them to Oxford.”

“When their friends ask them, “What do you like the most?” They will respond: Oxford, not London, nor Cambridge.”

“They love the feeling of walking through the city. They love the buildings, river, parks, their families, and specially the Embassy English School staff.”

“If you want your children to improve their English, Embassy English is the best way. But if you also want them to become a global citizen, send them to Oxford with Global!”

“The school is great and they treat you like family.”
