

Gloucestershire College - Cheltenham, UK

Situated just two hours drive from London, Gloucestershire College in Cheltenham has all the facilities and style of a metropolitan city college, whilst retaining the benefits of being located in a charming, traditional English town.

The main Cheltenham campus is located just a short bus ride from the city centre, and is home to the majority of the 20+ A Level courses on offer.

Teaching standards at the college are excellent, with a pass rate above 98% for A Levels, and all international students can benefit from the dedicated international office and a whole floor dedicated to EFL and international student support services.

Academically-focussed & Internationally-minded

GC is a leading Further Education college in the centre of England. Our large purpose-built campuses boast some of the best facilities in the UK, graded as “outstanding” by Ofsted. Our success rates are very high and many of our international students go on to study at top UK universities.

We have been welcoming international students for over 40 years. We provide a safe, friendly and supportive educational environment with committed teachers, outstanding facilities, and fantastic opportunities.

Life at GC

As a student at GC you will become part of our international community. At the start of September we have a week long International Student Induction, so students can learn about life at GC and settle into the college and the UK easily. Throughout the year we also arrange trips to different cities, towns and places of interest. There is a wide range of sporting and creative clubs available, as well as opportunities to get involved with local charities. It is important to us that students feel supported, which is why all our academic students have a personal tutor, who monitor their performance and ensure they are achieving their potential. We also have an International Advisor who is always available to help our students.

Cheltenham

We are located in the beautiful Cotswolds, in the heart of England. We are one hour from Oxford, Birmingham, Bristol and Bath, and two hours from London by car, train or coach.

The town itself is hard to beat for refined elegance and Regency terraces, annual festivals and racecourses. Also fortnightly farmers markets, classy shops and restaurants all surrounded by glorious countryside. Quintessentially English.
